#### **DETAILED ACTION**

1. This Office Action is in response to Amendment filed on October 14, 2003 (Paper No. 6).

2. Claims 1-15 are presented for examination.

3. Applicant's arguments with respect to claims 1-15 have been considered but are moot in

view of the new ground(s) of rejection.

4. The text of those sections of Title 35, U.S. Code not included in this action can be found

in a prior Office action.

# Specification

5. The substitute specification filed October 14, 2003 has been received.

### Drawings

6. The drawings were received on October 14, 2003. These drawings are accepted by the Examiner.

#### **Double Patenting**

7. Claims 1-6 provisionally rejected under the judicially created doctrine of double patenting over claims 1 and 5-7 of copending Application No. 09/663,252. This is a provisional double patenting rejection since the conflicting claims have not yet been patented.

The subject matter claimed in the instant application is fully disclosed in the referenced copending application and would be covered by any patent granted on that copending application

Page 3

Art Unit: 2185

since the referenced copending application and the instant application are claiming common subject matter, as follows: both applications claim a method for allocating resources comprising the steps of displaying a list of resources, wherein the resources comprise at least one of hardware and software; selecting the resources and configuring the selected resources. The subject application does not recite the processing resources comprises a hardware processor as set forth in the copending application. It would have been obvious to one of ordinary skill in the art to recognize that processing resources are one of a plurality of types of resources.

Furthermore, there is no apparent reason why applicant would be prevented from presenting claims corresponding to those of the instant application in the other copending application. See In re Schneller, 397 F.2d 350, 158 USPQ 210 (CCPA 1968). See also MPEP § 804.

### Claim Rejections - 35 USC § 103

- 8. Claims 1-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Vrhel, Jr. et al. [Vrhel, Jr.] (U.S. Patent No. 6,543,047).
- 9. Regarding claim 1, Vrhel, Jr. teaches a method for creating a computing environment substantially as claimed comprising the steps of:

providing a list of resources to a user (menu), wherein the resources comprises at least one of hardware device, operating system software and application software [col. 2, lines 23-24]; and

configuring the selected resource [col. 2, line 32 et seq.].

Application/Control Number: 09/662,990

Art Unit: 2185

Vrhel, Jr. does not explicitly teach the menu is displayed on a display device and the user uses an input device to indicate the selected resource. One of ordinary skill in the art would have recognized that, when ordering on-line, the menu should be displayed on a display device at the user site. Furthermore, for selecting a resource in the menu, the user obviously uses an input device (mouse, keyboard) to indicate the selected resource.

- 10. Regarding claims 2-6, these claims are directed to method steps for creating a computing environment of claim 1. As stated above, Vrhel, Jr. teaches the invention substantially as set forth in claim 1. At the time of the invention, one of ordinary skill in the art would have readily recognized that Vrhel, Jr. may obviously also teach the method steps of claim 1 as set forth in claims 2-6. As such, claims 2-6 are rejected under the same rationale with respect to claim 1.
- 11. Regarding claims 7-15, Vrhel, Jr. teaches the claimed method steps. Therefore, Vrhel, Jr. teaches the apparatus to implement the claimed method steps.

#### Conclusion

12. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thuan N. Du whose telephone number is (703) 308-6292 or via e-mail, **thuan.du@uspto.gov**. The examiner can normally be reached on Monday-Friday: 9:00 AM - 5:30 PM, EST.
